Is the inquiry into Commander McCalla's conduct and Lieutenant Steele's behavior, Captain Charles King, that narrator of delightful army stories, has some peinters for an effort in a now direction.

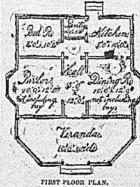

The present boom in the West Virgina oil fields promises to rival that of the excitement that swept over the State towards the close of the war, the development of which made Parkersburg known throughout the country. Hygienic considerations, always of

Teashirk Moderications of this design

The last modification suggested is the most important, and an illustration is given to show the appearance of it. For the two-story cottage, the direction of the roof-ridge is changed to run parallel with the greater width of plan. (The large veranda makes an exception to this rule in covering the one-story cottages.) The first floor plan is altered by making the hall one foot wider, by closing the hall door to kitchen and opening a hall door to pantry, and by building a hall stairway, 2 feet 8 inches wide, to the second story. The stairway o the second story. The sta-hould start on the dining room s he hall, one foot to the rear of the wie epening, and by twelve risers reach a platform over the pantry, thence by four risers reach the hallway above.

The second story plan may practically luplicate that of the first, but it is conduplicate that of the first, but it is considered better to divide the space equally between four bedrooms, each to be 9 feet 6 inches by 10 feet in size, planning a closet for each room. When the amount to be expended is strictly limited the owner is advised to floor the second story, but defer fluishing the rooms of that story until a more convenient time.

THE ESTIMATES OF COST, based on ruling prices for materials and labor in the vicinity of New York, are as follows: The one-story cottage, complete as de-The two-story cottage, complete as de 575 00 tory cottage, with the second floored, but otherwise unfin-

Dealness Can't be Cared
by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure Dealness,
and that is by constitutional remedies.
Dealness is caused by an inlamed condition of the mucous lining of the Eustachtian Tube. When this tube gets inflamed
you have a rumbling sound or imperfect
hearing, and when it is entirely closed
Dealness is the result, and unless the in-Deafuces is the result, and unless the in-cummation can be taken out and this rammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Denfiness (caused by Catarrh) that we can not cure by taking Hall's Catarrh Cure. Send for circulars, free.

Deafness - Hay Fever-A No. Home Treatment. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining niembrane of the nose and enstachian tubes. Microscopic research, however, has proved this to be a fact, and the result of the discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.
